

## BETTER REVIEWS 2.0

### User Guide

## Important Notice

CommerceExtensions reserves the right to make corrections, modifications, enhancements, improvements, and other changes to its products and services at any time and to discontinue any product or service without notice.

Customers should obtain the latest relevant information before placing orders and should verify that such information is current and complete. All products are sold subject to CommerceExtensions terms and conditions of sale supplied at the time of order acknowledgment.

CommerceExtensions warrants performance of its products to the specifications applicable at the time of sale in accordance with CommerceExtensions standard warranty. Testing and other quality control techniques are used to the extent

CommerceExtensions deems necessary to support this warranty. Except where mandated by government requirements, testing of all parameters of each product is not necessarily performed.

CommerceExtensions assumes no liability for applications assistance or customer product design. Customers are responsible for their products and applications using CommerceExtensions components. To minimize the risks associated with customer products and applications, customers should provide adequate design and operating safeguards.

CommerceExtensions does not warrant or represent that any license, either express or implied, is granted under any CommerceExtensions patent right, copyright, mask work right, or other CommerceExtensions intellectual property rights relating to any combination, machine, or process in which CommerceExtensions products or services are used. Information published by CommerceExtensions regarding third-party products or services does not constitute a license from CommerceExtensions to use such products or services or a warranty or endorsement thereof. Use of such information may require a license from a third party under the patents or other intellectual property of the third party, or a license from CommerceExtensions under the patents or other intellectual property of CommerceExtensions.

Resale of CommerceExtensions products or services with statements different from or beyond the parameters stated by CommerceExtensions for that product or service voids all express and any implied warranties for the associated CommerceExtensions product or service and is an unfair and deceptive business practice. CommerceExtensions is not responsible or liable for any such statements.

All company and brand products and service names are trademarks or registered trademarks of their respective holders.

2 Extension Installation ..... 6

## Extension Overview

BetterReviews 2.0 is the perfect module for fixing and improving upon Magento's default reviews and rating stars system. Our extension was also written with a number of features to allow you to maximize your SEO opportunities as well.

Additionally, this Magento module was almost entirely rewritten in version 2.0. The codebase has been considerably reduced and the efficiency of the code has been highly optimized to allow for fast and reliable performance on your Magento E-Commerce store.

Version 2.0 also includes support for the RWD responsive theme.

### **Main Features:**

- Option to display reviews on product page or Magento's default review page
- When displaying reviews on product page, any requests for the default reviews page will be 301-redirected to the product page
- Option to change the reviews block heading. Instead of the default heading "Reviews", you can make it say something like "Reviews for Metallica T-Shirt" or anything else that can incorporate the product name or SKU
- Option to sort the reviews by text length so that the most useful reviews show first in the list
- Option to add Structured Data/Rich Snippets to reviews. Activating this feature will allow Google to display your ratings stars and other related information in their search results pages. Example shown below:

#### **Custom Customer Registration and Checkout Fields**

[www.commerceextensions.com/custom-customer-registration-fields.html](http://www.commerceextensions.com/custom-customer-registration-fields.html) ▼

★★★★★ Rating: 5 - 6 reviews - \$65.00

Custom Customer Registration and Checkout Fields This extension allows you to add any type of field to the customer registration page and/or checkout pages.

- All options can be independently set for the various product types: Simple, Virtual, Downloadable, Grouped, Configurable, and Bundle.

### **Grouped, Configurable, & Bundle Product Reviews**

- Option to include child product reviews and star ratings along with the parent product's reviews and stars.
- Option to show the name of the child product for which the review was left, within the review.

## Extension Installation

1. Log out from Magento Admin panel if you are logged in
2. Unpack the contents of the zip file purchased and upload the app folder to your magento install root.
3. Review the readme.txt file, if included.
4. Log into Magento Admin Panel.

5. Clear the cache in System > Cache Management.
6. Go to System > Configuration > Commerce Extensions > Better Reviews.
7. Most options have been set by the installation script but you may adjust the options as necessary within this tab.

## Support

CommerceExtensions offers FREE 1hr of support and 1 year of updates for all extensions.
