

IMPORT/EXPORT BUNDLE OPTIONS UPDATE

User Guide

Important Notice

CommerceExtensions reserves the right to make corrections, modifications, enhancements, improvements, and other changes to its products and services at any time and to discontinue any product or service without notice.

Customers should obtain the latest relevant information before placing orders and should verify that such information is current and complete. All products are sold subject to CommerceExtensions terms and conditions of sale supplied at the time of order acknowledgment.

CommerceExtensions warrants performance of its products to the specifications applicable at the time of sale in accordance with CommerceExtensions standard warranty. Testing and other quality control techniques are used to the extent CommerceExtensions deems necessary to support this warranty. Except where mandated by government requirements, testing of all parameters of each product is not necessarily performed.

CommerceExtensions assumes no liability for applications assistance or customer product design. Customers are responsible for their products and applications using CommerceExtensions components. To minimize the risks associated with customer products and applications, customers should provide adequate design and operating safeguards.

CommerceExtensions does not warrant or represent that any license, either express or implied, is granted under any CommerceExtensions patent right, copyright, mask work right, or other CommerceExtensions intellectual property rights relating to any combination, machine, or process in which CommerceExtensions products or services are used. Information published by CommerceExtensions regarding third-party products or services does not constitute a license from CommerceExtensions to use such products or services or a warranty or endorsement thereof. Use of such information may require a license from a third party under the patents or other intellectual property of the third party, or a license from CommerceExtensions under the patents or other intellectual property of CommerceExtensions.

Resale of CommerceExtensions products or services with statements different from or beyond the parameters stated by CommerceExtensions for that product or service voids all express and any implied warranties for the associated CommerceExtensions product or service and is an unfair and deceptive business practice. CommerceExtensions is not responsible or liable for any such statements.

All company and brand products and service names are trademarks or registered trademarks of their respective holders.

Extension Overview

This a quick and easy extension to bulk update bundle selection options including pricing and related option data. This is great for sites with alot of products with a lot of bundle options and you no longer have to manually update them one by one. Now it's just a simple csv. See screenshots and email with any questions at scottbolasevich@gmail.com

The screenshot displays the CommerceExtensions interface for updating bundle options. It features a sidebar on the left with navigation options like 'Meta Information', 'Image', 'Design', 'Gift Options', 'Inventory', 'Website', 'Categories', 'Related Products', 'Up-sells', 'Cross-sells', 'Product Reviews', 'Product Tags', 'Customer Tagged Product', 'Custom Options', and 'Bundle Items'. The main content area shows two bundle configuration panels. The top panel is for 'Bundle Test 2 (Default)' with a 'Default Title' of 'One Item'. It includes a 'Input Type' dropdown set to 'Drop-down', 'Is Required' set to 'Yes', and 'Position' set to '1'. Below this is a table of bundle options:

Name	Price	Price Type	Default Qty	User Defined Qty	Position	Default
Test Title Green SKU: Test Title Green	11.00	Fixed	1 0000	Yes	8	☑
Test Title Yellow SKU: Test Title Yellow	12.00	Fixed	1 0000	Yes	8	☑
Test Title Yellow SKU: Test Title Yellow	13.00	Fixed	1 0000	Yes	8	☑

The bottom panel is for 'Bundle Test 2 (Default)' with a 'Default Title' of 'Two Item'. It has 'Input Type' set to 'Drop-down', 'Is Required' set to 'Yes', and 'Position' set to '2'. Below this is another table of bundle options:

Name	Price	Price Type	Default Qty	User Defined Qty	Position	Default
Test Title Blue SKU: Test Title Blue	14.00	Fixed	1 0000	Yes	8	☑
Test Title Blue SKU: Test Title Blue	15.00	Fixed	1 0000	Yes	8	☑
Test Title Green SKU: Test Title Green	16.00	Fixed	1 0000	Yes	8	☑

FEATURES:

- Update Price
- Update Price Type
- Update Default Qty
- Update User Defined Qty
- Update Position
- Export Bundle Selection Data

Extension Installation

1. Log out from Magento Admin panel if you are logged in
2. Unpack the contents of the zip file purchased and VIA ftp and upload the app folder to your magento install root.
3. Log into Magento Admin Panel
4. If Cache Control is enabled in Magento go to 'System > Cache Management' section, select 'Refresh' under 'All Cache' drop-down menu and press 'Save Cache Settings'
5. Now go to System > Import / Export > Commerce Extensions -> Bundle Options Update Import/Export and you can use the profiles from here to import and export.
6. **OPTIONAL** – you can setup either import/export profiles as a cron job see this url ->

http://www.commerceextensions.com/how_to_setup_cron_job

Extension Usage

1. **DO NOT** – Edit the CSV in excel it strips format and breaks import. I recommend using openoffice.org calc and saving in utf-8 format. Or use the (XML) versions for the profile and the excel workbook sheet 2003 XML format.
2. Overall the extension is very straight forward. You can find in magento admin under

system -> import/export -> Commerce Extensions Bundle Options Update Import/Export

import bundle options update
export bundle options update

and you can run the export to get a sample csv of products already in your site and then you just upload via ftp to var/import and run the import profile and it will import it back in.

Support

CommerceExtensions offers 1 hour of EMAIL support and 6 months of updates for all magento 1 extensions.

If you need support related to CommerceExtensions extension usage, feel free to contact me at scottbolasevich@gmail.com
