## Important Notice

CommerceExtensions reserves the right to make corrections, modifications, enhancements, improvements, and other changes to its products and services at any time and to discontinue any product or service without notice.

Customers should obtain the latest relevant information before placing orders and should verify that such information is current and complete. All products are sold subject to CommerceExtensions terms and conditions of sale supplied at the time of order acknowledgment.

CommerceExtensions warrants performance of its products to the specifications applicable at the time of sale in accordance with CommerceExtensions standard warranty. Testing and other quality control techniques are used to the extent CommerceExtensions deems necessary to support this warranty. Except where mandated by government requirements, testing of all parameters of each product is not necessarily performed.

CommerceExtensions assumes no liability for applications assistance or customer product design. Customers are responsible for their products and applications using CommerceExtensions components. To minimize the risks associated with customer products and applications, customers should provide adequate design and operating safeguards.

CommerceExtensions does not warrant or represent that any license, either express or implied, is granted under any CommerceExtensions patent right, copyright, mask work right, or other CommerceExtensions intellectual property rights relating to any combination, machine, or process in which CommerceExtensions products or services are used. Information published by CommerceExtensions regarding third-party products or services does not constitute a license from CommerceExtensions to use such products or services or a warranty or endorsement thereof. Use of such information may require a license from a third party under the patents or other intellectual property of the third party, or a license from CommerceExtensions under the patents or other intellectual property of CommerceExtensions.

Resale of CommerceExtensions products or services with statements different from or beyond the parameters stated by CommerceExtensions for that product or service voids all express and any implied warranties for the associated CommerceExtensions product or service and is an unfair and deceptive business practice. CommerceExtensions is not responsible or liable for any such statements.

All company and brand products and service names are trademarks or registered trademarks of their respective holders.

## Extension Overview

This extension adds an additional "add to cart" button for related products and optionally upsell products. You can also show a qty field or just disable this. This is great for anyone who is a regular online shopper. And works very well for a scenario where the shopper wants to add both the main plus selected Related Products / Upsell Products to the cart. This is a 100% modular extension and will be compatible with any other extensions or modules.

### **FEATURES:**

- Adds an optional "add to cart" button for related products with an optional qty field
- Adds an optional "add to cart" button for upsell products with an optional qty field
- This extension now offers 2 setups. You can have it with 1 qty box for all products / no qty box or a qty box for each related product. It can be setup any of the 3 methods.
- This extension has been tested on community editions 1.2.x / 1.3.x / 1.4.x / 1.5.x / 1.6.x / 1.7.x / 1.8.x / 1.9.x and all Professional and Enterprise Editions.

## Extension Installation

1. Log out from Magento Admin panel if you are logged in
2. Unpack the contents of the 'extension' folder from the package file purchased from CommerceExtensions to your Magento root folder
3. Log into Magento Admin Panel
4. If Cache Control is enabled in Magento go to 'System > Cache Management' section, select 'Refresh' under 'All Cache' drop-down menu and press 'Save Cache Settings'
5. After uncompressing the Related Products Add To Cart zip, you should have one folder: APP.
6. Go to your server and at the root upload the APP folder from zip over your existing APP folder on your install
7. Once the files are in their respective locations. go to your magento admin and then Log into the administration area and go to System > Configuration > Cache and clear your cache and you should now see the extension installed in your theme.

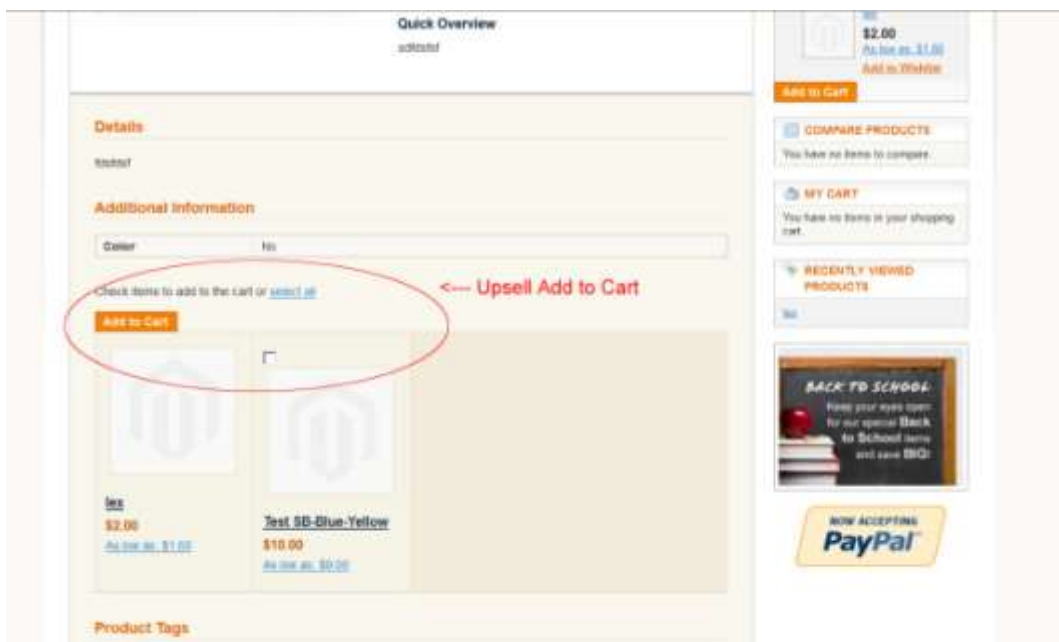

# Extension Usage

Once the extension is properly installed you should see something similar to the screen shot below.

## FOR RELATED

## FOR UPSELL
