## Important Notice

CommerceExtensions reserves the right to make corrections, modifications, enhancements, improvements, and other changes to its products and services at any time and to discontinue any product or service without notice.

Customers should obtain the latest relevant information before placing orders and should verify that such information is current and complete. All products are sold subject to CommerceExtensions terms and conditions of sale supplied at the time of order acknowledgment.

CommerceExtensions warrants performance of its products to the specifications applicable at the time of sale in accordance with CommerceExtensions standard warranty. Testing and other quality control techniques are used to the extent CommerceExtensions deems necessary to support this warranty. Except where mandated by government requirements, testing of all parameters of each product is not necessarily performed.

CommerceExtensions assumes no liability for applications assistance or customer product design. Customers are responsible for their products and applications using CommerceExtensions components. To minimize the risks associated with customer products and applications, customers should provide adequate design and operating safeguards.

CommerceExtensions does not warrant or represent that any license, either express or implied, is granted under any CommerceExtensions patent right, copyright, mask work right, or other CommerceExtensions intellectual property rights relating to any combination, machine, or process in which CommerceExtensions products or services are used. Information published by CommerceExtensions regarding third-party products or services does not constitute a license from CommerceExtensions to use such products or services or a warranty or endorsement thereof. Use of such information may require a license from a third party under the patents or other intellectual property of the third party, or a license from CommerceExtensions under the patents or other intellectual property of CommerceExtensions.

Resale of CommerceExtensions products or services with statements different from or beyond the parameters stated by CommerceExtensions for that product or service voids all express and any implied warranties for the associated CommerceExtensions product or service and is an unfair and deceptive business practice. CommerceExtensions is not responsible or liable for any such statements.

All company and brand products and service names are trademarks or registered trademarks of their respective holders.

## Extension Overview

This magento 2 extension allows you to import and export your coupon codes and shopping cart rules data. It includes all coupon codes / rules that are setup in magento admin under “Marketing -> Cart Price Rules”. See Screenshot of example import\_coupon\_codes.csv for a more details. This extension will import/export data in CSV format. You can also bulk delete coupon code/rules via csv by setting delete\_rule = delete or see import\_coupon\_codes\_w\_delete.csv

### **FEATURES:**

- Import/Export all coupon code shopping cart rules
- Can bulk Delete coupon codes/shopping cart rules via csv import
- Supports Importing “Actions” and “Conditions”
- Supports Multi-store environments
- Comes with a User Manual / Install Instructions

## Extension Installation

1. Log out from Magento Admin panel if you are logged in
2. Unpack the contents of the zip file purchased and VIA ftp and upload the app folder to your magento install root.
3. SSH into your magento server and Clear cache using command

```
php -f bin/magento cache:flush
```

4. After uncompressing the shopping cart price rules import/export package, you should have one folder: app

Upload everything in the app/\* folder to your app/\* folder.

5. SSH into your magento server and run command via ssh in root of magento install to install module

```
php -f bin/magento setup:upgrade
```

and

```
php -d memory_limit=1024M -f bin/magento setup:di:compile
```

## Extension Usage

1. **DO NOT** – Edit the CSV in excel it strips format and breaks import. I recommend using openoffice.org calc and saving in utf-8 format.
2. Overall the extension is very straight forward. You can find in magento admin under  
  
system -> import/export shopping cart price rules
3. NOTE the following columns and value settings for use:

<b>name</b>	= [REQUIRED] - name of coupon code you are importing
<b>label</b>	= [REQUIRED] - the label of the coupon code
<b>code</b>	= [REQUIRED] - the actual coupon code
<b>usage_limit</b>	= numeric value
<b>expiration_date</b>	= date format as follows "2010-05-01"
<b>description</b>	= [REQUIRED] - description of coupon code
<b>from_date</b>	= [REQUIRED] - must set date for coupon code to start
<b>to_date</b>	= date format as follows "2010-05-01"
<b>uses_per_customer</b>	= numeric value
<b>customer_group_ids</b> delimiter	= just the customer group ID and if multiple use comma as delimiter
<b>is_active</b>	= [REQUIRED] - (1=true/0=false) if coupon code is active
<b>stop_rules_processing</b>	= [REQUIRED] - (1=true/0=false)
<b>is_advanced</b>	= [REQUIRED] - use 0 or 1
<b>product_ids</b> delimiter	= just the productID and if multiple use comma as delimiter
<b>sort_order</b>	= [REQUIRED] - sort order coupon code. 0 is default
<b>simple_action</b>	= [REQUIRED] - to_fixed / by_percent / cart_fixed
<b>discount_amount</b>	= [REQUIRED] - discount amount of coupon code
<b>discount_qty</b>	= [REQUIRED] - use 1 for default
<b>discount_step</b>	= [REQUIRED] - use 0 for default
<b>simple_free_shipping</b>	= [REQUIRED] - use 0 for default. can be 0, 1 or 2
<b>apply_to_shipping</b>	= [REQUIRED] - use 0 for default.
<b>times_used</b> of times coupon code has been used	= [REQUIRED] - use 0 for default. this is the number of times coupon code has been used
<b>is_rss</b>	= [REQUIRED] - use 1 for default.
<b>coupon_type</b> (must set if you are using a coupon code)	= [REQUIRED] - 1(No Coupon) or 2(Specific Coupon)

website\_ids = single or comma delimited value of websiteIDs the coupon code applies to

## Formatting the Conditions Column

e.g. "quote\_item\_price=2.00^category\_ids=2,3,4,5"

(delimiter is ^ for each rule and its rule\_code=value)

### Conditions Rules

"Subtotal" = base\_subtotal=20.00

"Total Items Quantity" = total\_qty=10

"Total Weight" = weight=1

"Payment Method" = payment\_method=googlecheckout(or any payment method here.. e.g. paypal\_express/ccsave/purchase\_order/checkmo etc)

"Shipping Method" = shipping\_method=flatrate\_flatrate

"Shipping Postcode" = postcode=02322

"Shipping Region" = region=Miami

"Shipping State/Province" = region\_id=18 (must be the ID of the region)

"Shipping Country" = country\_id=US

## Formatting the Actions Column

Example of value in the "actions" column

e.g. "quote\_item\_price=2.00^category\_ids=2,3,4,5"

(delimiter is ^ for each rule and its rule\_code=value)

### Actions Rules

#### Cart Item Attribute

"Price In Cart" = quote\_item\_price=2.00

"Qty In Cart" = quote\_item\_qty=2.00

"Row Total In Cart" = quote\_item\_row\_total=2.00

#### Product Attribute

"Attribute Set" = attribute\_set\_id=4

"Category" = category\_ids=2,3,4,5

## Bulk Delete Coupon Codes / Shopping Rules

To bulk REMOVE shopping cart rules see "import\_coupon\_codes\_w\_delete.csv"

or just add column "delete\_rule" and value = "delete"

the extension looks up by "code" value and removes shopping cart rule and all related data.

# Support

CommerceExtensions offers only PAID support and 6 months of free updates from date of purchase for all magento extensions.

If you need paid support related to CommerceExtensions extension usage, feel free to contact me at [scottbolasevich@gmail.com](mailto:scottbolasevich@gmail.com)
