IMPORT/EXPORT SYNONYMS

FOR MAGENTO 2

User Guide

Important Notice

CommerceExtensions reserves the right to make corrections, modifications, enhancements, improvements, and other changes to its products and services at any time and to discontinue any product or service without notice.

Customers should obtain the latest relevant information before placing orders and should verify that such information is current and complete. All products are sold subject to CommerceExtensions terms and conditions of sale supplied at the time of order acknowledgment.

CommerceExtensions warrants performance of its products to the specifications applicable at the time of sale in accordance with CommerceExtensions standard warranty. Testing and other quality control techniques are used to the extent CommerceExtensions deems necessary to support this warranty. Except where mandated by government requirements, testing of all parameters of each product is not necessarily performed.

CommerceExtensions assumes no liability for applications assistance or customer product design. Customers are responsible for their products and applications using CommerceExtensions components. To minimize the risks associated with customer products and applications, customers should provide adequate design and operating safeguards.

CommerceExtensions does not warrant or represent that any license, either express or implied, is granted under any CommerceExtensions patent right, copyright, mask work right, or other CommerceExtensions intellectual property rights relating to any combination, machine, or process in which CommerceExtensions products or services are used. Information published by CommerceExtensions regarding third-party products or services does not constitute a license from CommerceExtensions to use such products or services or a warranty or endorsement thereof. Use of such information may require a license from a third party under the patents or other intellectual property of the third party, or a license from CommerceExtensions under the patents or other intellectual property of CommerceExtensions.

Resale of CommerceExtensions products or services with statements different from or beyond the parameters stated by CommerceExtensions for that product or service voids all express and any implied warranties for the associated CommerceExtensions product or service and is an unfair and deceptive business practice. CommerceExtensions is not responsible or liable for any such statements.

All company and brand products and service names are trademarks or registered trademarks of their respective holders.

Extension Overview

This extension for Magneto 2 allows you to import and export your Magento synonyms in bulk via csv format. It will import new synonyms as well as update existing synonyms and you can even bulk delete synonyms with this extension.

For example you could use this extension to transfer existing synonyms from either a Magento 1 installation or a 3rd party data source and import them directly into your new Magento 2 installation. It could also be used to update and maintain existing synonyms data and can be very useful for medium to large sites that could have thousands of synonyms. The ability to bulk edit this amount of data in a spreadsheet is the fastest way to manage the data.

All documentation for install and user instructions as well as sample csv's are included. Feel free to email me directly at scottbolasevich@gmail.com with any questions

 Extension Features:

- Import/Export Synonyms

- Supports All synonyms values (group_id , synonyms , store id , website_id)

- Can update existing Synonyms and related values.

- Can Bulk Delete existing Synonyms

- Comes with a User Manual / Install Instructions

Extension Installation

1. Log out from Magento Admin panel if you are logged in

2. Unpack the contents of the 'extension' folder from the package file purchased from CommerceExtensions to your Magento root folder

3. SSH into your magento server and Clear cache using command

   php -f bin/magento cache:flush

4. After uncompressing the Synonyms import/export package, you should have one folder: app

   Upload everything in the app/* folder to your app/* folder.

5. SSH into your magento server and run command via ssh in root of magento install to install module

   php -f bin/magento setup:upgrade

   and

   php -d memory_limit=1024M -f bin/magento setup:di:compile

Extension Usage

1. **DO NOT** – Edit the CSV in excel it strips format and breaks import. I recommend using openoffice.org calc and saving in utf-8 format.

2. Overall the extension is very straight forward. You can find in magento admin under

   system -> import/export Synonyms

   and you can run the export to get a sample csv of synonyms already in your site and then you upload via the browse button and click the import synonyms button and it will import it into the system.

3. Delete Synonymson Match - If this is set to yes and during import the group_id matches then it will delete it.. If this is set to no it will either update the data if a match or create a new synonyms.

4. NOTE the following columns and related values

group_id = (optional) this is the internal id / number for magento for the synonym.. if left blank will auto calculate

synonyms = (REQUIRED) this is the "synonym"

store_id = (REQUIRED) this is the store_id for which the synonym belongs too

website_id = (REQUIRED) this is the website_id for which the synonym belongs too

Support

CommerceExtensions offers only PAID support and 6 months of free updates from date of purchase for all magento extensions.

If you need paid support related to CommerceExtensions extension usage, feel free to contact me at scottbolasevich@gmail.com
