Upload File

Your server PHP settings allow you to upload files not more than 128M at a time. Please modify post_max_size (currently is 128M) and upload_max_filesize (currently is 128M) values in php.ini if you want to upload larger files.

Make sure that data encoding in the file is consistent and saved in one of supported encodings (UTF-8 or ANSI).

File 1: Browse... No file selected.
File 2: Browse... No file selected.
File 3: Browse... No file selected.

**Easy upload the files for import.
No need to use 3rd Party FTP software**
